

LESSON 3 – PART 1

Methods of Philosophizing

Introduction to the PHILOSOPHY of the Human Person

FACT OR BLUFF!

- The teacher will show a sentence.
- You will guess if the sentence is a fact or bluff (not true).
- Support your answer by explaining why it is a fact or bluff.

FACT OR BLUFF!

The sun is the center of the solar system.

FACT

BLUFF

FACT

FACT OR BLUFF!

Asia is the largest continent in the world.

FACT

BLUFF

FACT

FACT OR BLUFF!

God made the world in seven days.

FACT

BLUFF

FACT

FACT OR BLUFF!

Man has the right to life, liberty and the pursuit of happiness.

FACT

BLUFF

FACT

FACT OR BLUFF!

China’s continued presence in the Spratlys is a violation of International law.

FACT

BLUFF

FACT

FACT OR BLUFF!

A person must always consider the interests of his/her family before his own happiness.

BLUFF

SEARCH TIME!

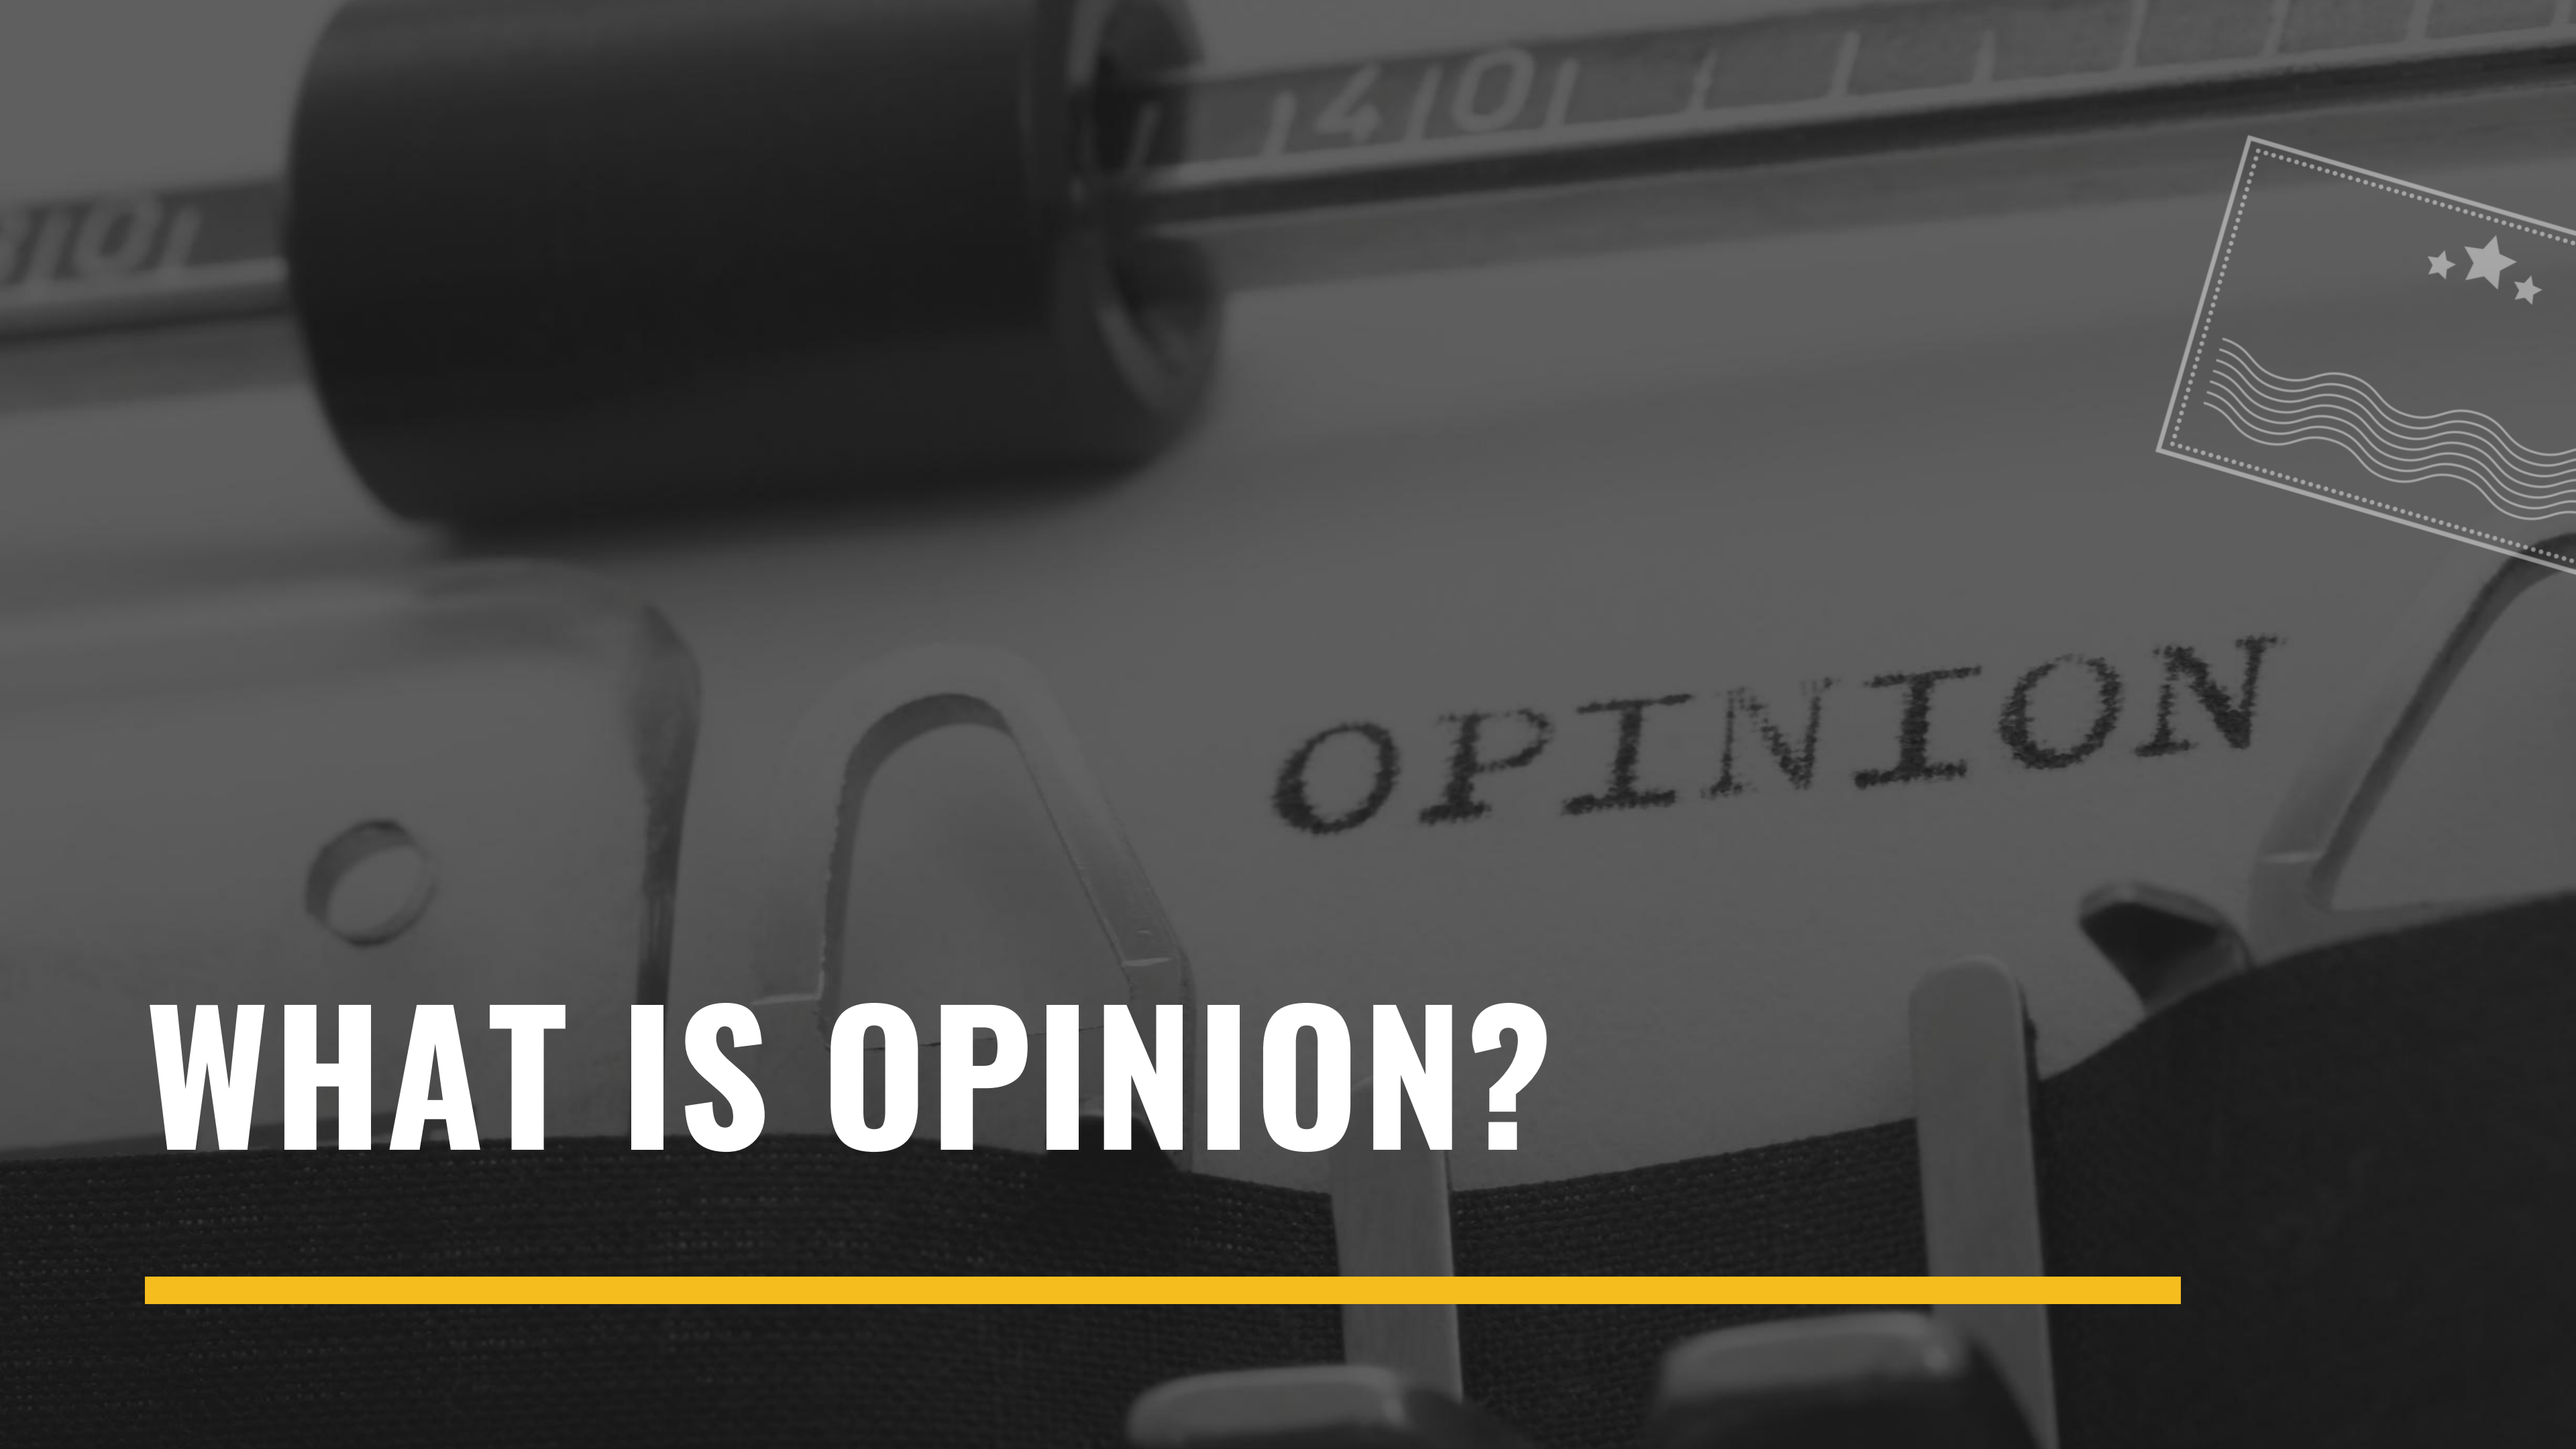

Search the following terms:

- Opinion
- Truth
- Four Theories of Truth – Correspondence, Coherence, Constructivist, and Pragmatic Theories

LEARNING TARGETS

- Shares their own philosophical quotation;
- Recalls the philosophers in Western and Eastern Philosophy, and the three (3) Great “Golden Age” Philosophers;
- Knows the distinction between truth and opinion;
- Analyzes situations that show the difference between opinion and truth, and theories of truth;

DISTINCTION BETWEEN “OPINION” VS “TRUTH”

WHAT IS OPINION?

OPINION IS...

- Expresses someone's belief, view, idea, or judgment about something or someone
- Opinions do not have to be based on logical reasoning.
- Content is either subjective

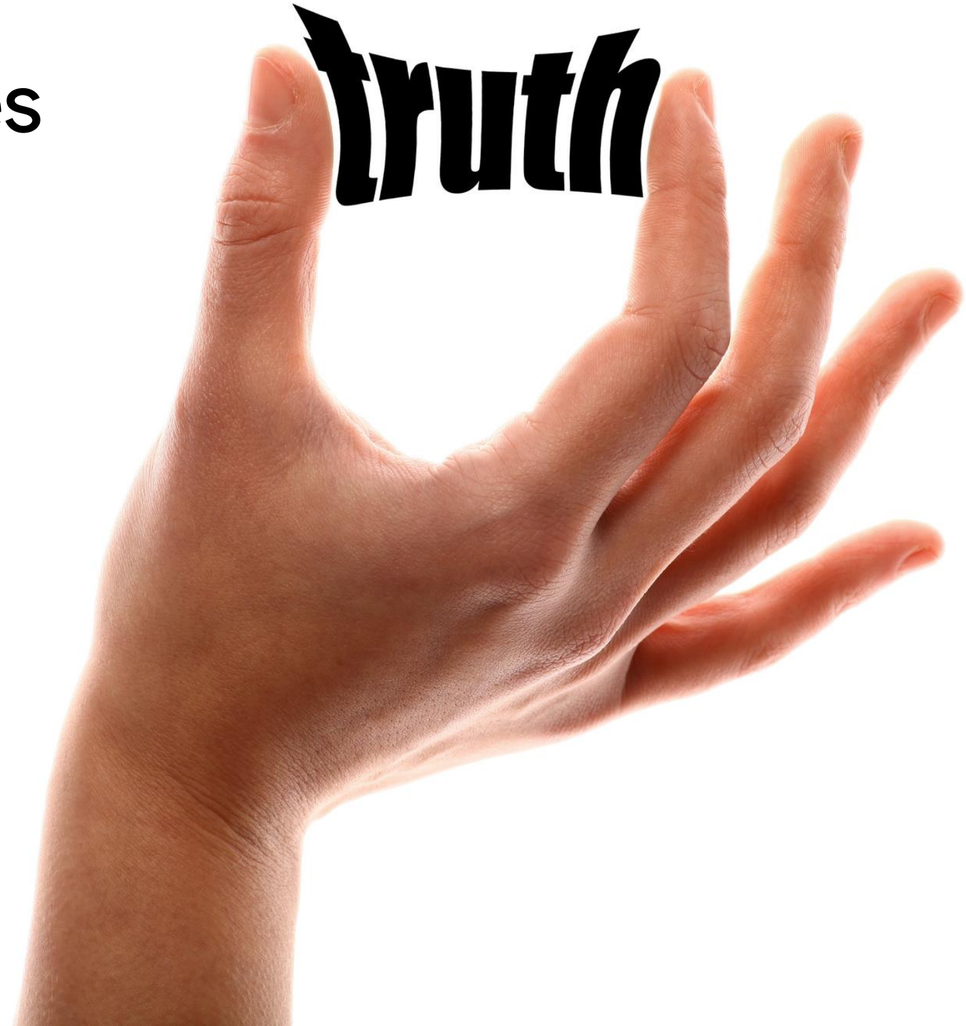

WHAT IS TRUTH?

TRUTH IS...

- An accepted statement and it agrees with facts and reality.
- Needs to be supported by factual evidence.
- Verifiable and be able to undergo rigorous testing.

"What is not real never was and never will be. What is real always was and cannot be destroyed."

- Bhagavad Gita

FOUR THEORIES OF *TRUTH*

- COHERENCE
- CORRESPONDENCE
- PRAGMATIC
- CONSTRUCTIVIST

CORRESPONDENCE THEORY

- True = reality or the actual state of affairs.
- Sense perception or experience as the source of knowledge.

Example: “A mammal is an animal which is warm-blooded, has hair, and it can feed its young with milk because it has a mammary gland”

“Pigs can fly” = false

COHERENCE THEORY

- True if it makes sense when placed in a certain situation or context.
- Relativism - there are no absolute truths. It is possible for alternative truths to exist in various contexts.

Example: Muslims have a belief that certain animals like pigs are unclean. The belief that eating pork will render them unclean makes sense in the belief of Islamic faith. While the Non-Muslims, however do not share this belief and thus do not follow to this practice of not eating pork.

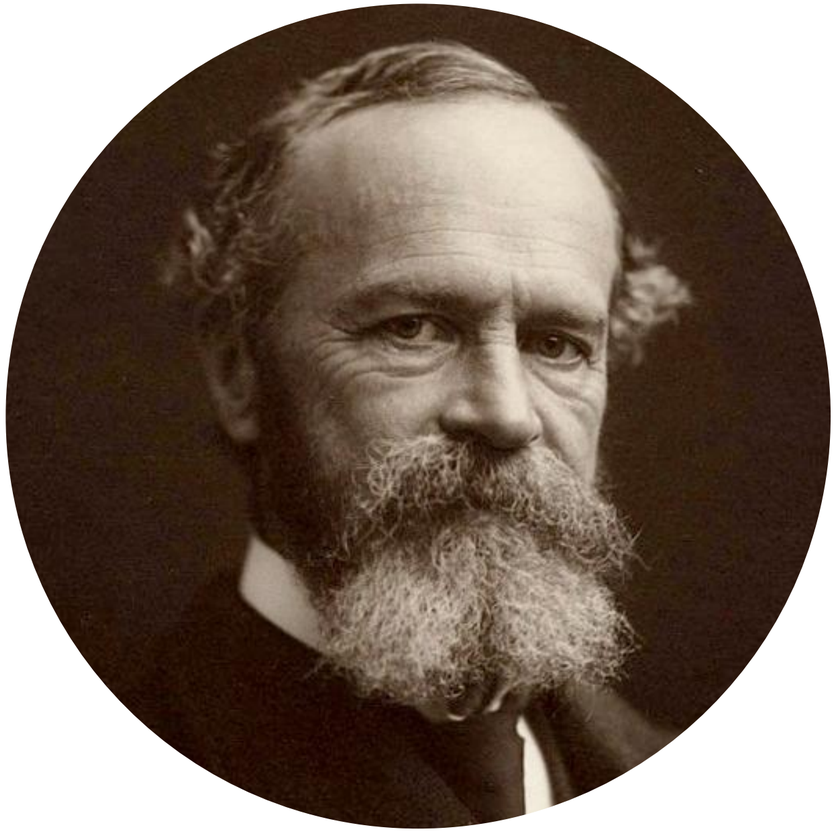

CONSTRUCTIVIST THEORY

- Knowledge is formed by social forces and influenced by history and culture.
- Knowledge is gained as part of social experience

Example: How different societies consider marriage

PRAGMATIC THEORY

- Associated with William James
- Something is true if we can put it into practice.
- Knowledge is true if it is beneficial to believe it.

Example: Idea of believing in Santa Claus

TRUTH VS. OPINION

- Soju tastes better than beer
- People use their legs to walk.
- The capital of the Philippines is Manila.
- The movie was boring
- Dogs Are Great Pets
